SECTION 4- Specifications

4.1 Background

The HSDF program is based on the HSDF Act and was created "for the purpose of encouraging county governments to provide locally identified services that will meet the human services needs of citizens in their counties." The funds "shall be used by the county solely to provide and administer county based social services and service coordination within the county."

The HSDF Act sets forth legal parameters of the HSDF program and establishes the responsibilities of both the Department of Human Services ("the department") and counties. The contents of this section further explain the parameters and responsibilities. The Human Services Development Fund (HSDF) was implemented by the Commonwealth of Pennsylvania beginning in Fiscal Year 1984-1985 in a response to requests by counties for funding that allows more discretion and

flexibility to accommodate local needs and priorities within the categorical programs for which counties are responsible. These Categorical Programs include:

- Adult Services (Low Income Adults)
- Aging
- Children and Youth
- Drug and Alcohol
- Homeless Assistance
- Community Based Mental Health and Mental Retardation

Through the HSDF, counties are provided an annual, formula based appropriation. Counties are in turn responsible to plan the utilization of these resources within the Commonwealth's Guidelines according to their own community's needs. The HSDF was established under statute through the passage of the Act 1994-78, the Human Services Development Act. Section 5(8) of the Act requires the Department of Human Services to report annually to the General Assembly on the expenditures of the fund monies, how they were used, and the categories and numbers of clients served. Mifflin Juniata Human Services Department carries out the planning, allocation, monitoring and reporting on the resources it receives through the Human Services Development Fund on behalf of the Board of Commissioners.

4.2 Project Goals and Objectives

The objectives for the use of Human Services Development Fund are the following:

- Target identified service gaps within existing county categorical programs
- Allocate resources outside of County Government based on community need
- Allocate resources internal and external to government so that maximum service impact for client populations can be achieved
- Coordinate with other community funding resources to avoid duplication of service
- Prioritize the use of services which promote client attainment of self sufficiency
- Prioritize the use of services which prevent long term problems through early intervention
- Quantify service impact
- Utilize data for continuous quality improvement of service and in planning decisions for future allocation of Human Service Development Funds

4.3 Scope of Service

The total amount of available HSDF funding through the County of Mifflin or the County of Juniata that is available for competitive bid is determined by state allocations and can be determined by contacting the county Human Service Department after June of each year.
